ACUM!

Acum ca Romania ca plecat de la europene pe un meritat loc 12 care nu stiu daca ne bucura sau nu,asta fiind inainte de Franta.Acum ca s-a lansat Sandero si avem al doilea model de dacia inegalabila care ne-a aglomerat drumurile noastre toate de atata vreme.E clar ca suntem pe drumul cel bun.Acum ca o sa avem o fabrica de cosmetice al unui multinational de prestigiu pe teritoriu romaniei.Acum ca avem foarte multe subsidiare de banci,acolo unde ne platim cu mai multa usurita ratele la creditele de nevoi personale,si de ce nu facturile de curent sau gaze.Acum ca ofertele la telefonie mobila sunt tot mai tentante.Acum ca europa ne ofera diverse fonduri pe care le putem cheltui pe diverse proiecte de care vor beneficia toti indivizi.Acum ca statul te sprijina cu un avocat in caz de nevoie.Acum ca noul sef al consiliului judetean si-a depus juramantul...ca ce?o sa avantajeste furtul in continuare?Acum ca,apropo de politica,avem primari vechi sau noi.Acum ca lacul de unghii s-a ieftinit.Acum ca ne dorim sa ne plimbam pe maluri pustii.Acum ca berea se v-a scumpi.Acum ca lideri de piata sunt cei care s-au alaturau regimului politic.Acum ca reteta sau medicamentul nu mai e atat de sigur.Acum cand am crescut.Acum cand totul pare atat de usor.Acum cand viata e inaintea noastra.Acum cand...acum cand totul pare a fi pe calea cea buna.Acum...

Acum...si lista continua la nesfarsit.

Dar acum...ce facem cu dragostea?

STINGEREA!

Da ma animalule!Daca avem ziua indragostitilor cand trebuie sa iubim,daca avem ziua de piosenie cand trebuie sa meditam,daca avem ziua X sau Y,daca avem ziua holocaustului in care ne aducem aminte de modul in care un om trateaza alt om,daca avem....avem multe mai animalule.

Nici nu le stim pe toate.Noroc ca avem memento pe telefoanele mobile...

Ei bine,avem si ziua stingerii in care stingem domnle becu chiar daca...revin la vechea problema,avand o zi cu o anumita tema ne permitem ca in restul anului sa fim ignoranti.

Da,mai animalule!

E trist ma...ca avem ziua X sau Y.

Multumesc lui Andrei

WHAT THEPUNK

Dead Elephant-Lowest Shered Descent

When I say experimental I think at many other things, but not at sounds so varied like this band combines: post HC, punk, industrial, noise, psychedelic and I stop here.
A punk energy together with a psychedelic sound make Dead Elephant one of the most complex bands of Robotradio.
Honestly, I am not such a big fan of this musical genre, but listening to this album I have been impressed by what these boys do.
Primal instincts, psychedelic attitudine, punk energy.
The difference between other bands that try experiencing such new sounds and Dead Elephtant is that the music of the latter goes to the bone.
The band share the scene with names such as: Zu, Joe Lally(Fugazi) or Lair of The Minotaur.

OBRINT PAS

Obrint Pas s-au format in 1993 in Valencia fiind o trupa ce militeaza pentru independenta provinciilor catalane.Primele inregistrari s-au produs undeva prin anii 1994 si in felul acesta trupa a reusit sa ajunga la cea de-a 3-a editie a Tirant De Rock,festival ce a deschis drumul trupei.

Numele trupei vine de la o expresie in catalana care se traduce prin "a-ti face loc",Obrint Pas exprima foarte bine sentimentele catalanilor printr-un amestec de rock,ska,punk si reggae alaturi de un instrument traditional din zona Valenciei,dolçaina.
Primul album a venit in 1997,purtand titlul La revolta de l'ànima.Urmat peste 3 ani,in 2000 de cel de-al doilea material:Obrint Pas,primul lansat sub egida Propaganda Pel Fet.
Stilul trupei s-a definitivat in 2003 cu albumul Terra,incercand stiluri noi.Un an mai tarziu urmeaza si cel de-al 4-lea album: La Plama,care i-a adus in: Germania,Elvetia,Olanda,Maroc sau in zona Saharei de Vest.

Ultimul lor material En Moviment (2005) este un album live cu mai multe colaborari cum ar fi cele cu Alex de la Inadaptats, Fermin Muguruza, Al Tall si multi altii. A fost inregistrat ca tribut lui Ovidi Montllor in Valencia la 10 ani de la moartea acestuia. Acest material a ajuns in clasamentele spaniole (fiind singura trupa care canta in catalana),
In 2006, trupa a plecat intr-un turneu international numit Internacionalista Tour si a inclus si tari noi in care nu mai cantasera precum Anglia, Norvegia, Cehia, Argentina etc.

In 2007, trupa a lansat al 5lea album de studio Benvingut al Paradís (pe catalana insemnand Bun-venit in Paradis). Lucrarile de arta il infatiseaza pe Muhamad Ali.

MoskovSKAya vs. Dance Trauma and The Others live

@Scena Club-Brasov-21.06.2008

Sambata seara a fost prilej bun de distractie alaturi de trupele ska ce au cantat in club Scena din Brasov, una dintre acestea fiind cunoscuta trupa de ska din Germania, MoskovSKAya, iar cealalta poate ceva mai cunoscuta la noi in tara, si anume Dance Trauma. Cred ca si ziua de sambata dar si multele afise lipite de Centrul cultural German (care a organizat concertul) au contribuit la numarul mare de participanti la acest eveniment, as zice unic avand in vedere ca nu prea au fost concerte cu ska adevarat pe la Brasov...Publicul a fost extraordinar, in mod surprinzator pt mine destul de variat, au venit tineri chiar si din Alba Iulia si din imprejurimile Brasovului, un public cunoscator a multor melodii Dance Trauma. Ei ne-au oferit prilejul de a dansa pe melodiile deja "celebre" cum ar fi E-uri, sau Sensimila, Vibratii pozitive, dar si mai putin cunoscute de public cum ar fi One Step Beyond a celor de la MAdness. Atmosfera sa incins repede si in cele din urma (in fata cel putin) multi au scapat imediat de tricouri ramanand doar cu bretelele in carouri alb-negru.

Apoi au urmat cei de la MoskovSKAya in frumoasele lor costume albe si bineinteles tenesi pentru a putea mai usor skansa. Publicul i-a primit foarte bine, si ei simtindu-se la fel pe scena, ba chiar cerand aparatul foto din cand in cand de la cei din fata pentru a poza publicul entuziasmat. Cele mai "gustate" piese de catre public fiind Understand si No one will get here out alive, poate si din cauza caldurii care i-a extenuat atat pe membrii trupelor cat si pe cei din public. Cu parere de rau (din partea mea cel putin) nu au adus nici una dintre trupe distro, astfel ca nu am putut ramane cu alte amintiri de la concert doar cu sutele de poze. Speram ca acest prim concert de ska de la mama lui sa fie deschizatorul unui sezon cat mai lung de concerte de acest gen in Brasov, astfel incat sa se dezvolte si aici mai bine decat pana acum culturile ska, ska-punk, si asa mai departe.

MAKE IT HAPPY

1. Hey Marco,I'm Mircea from More Punk Than You Zine. Greetings from Romania. How are you?
Hi Mircea, nice to hear from you, thanks a lot for this great chance that you're giving us: to be known also in Romania from the readers of More Punk Than You 'zine! We are fine, the summer is beginning and the open air drinking time is approaching. It's also the best period of the year to admire girls and to have fast adventures by the seaside so we're looking forward to holidays!

2. Tell me something about Make It Happy, a little history.
Make It Happy is the meeting between melody, power and punk attitude at its core. Make It Happy were officially born in August 2005, when 4 musicians coming from totally different musical experiences met up after having replied to an announcement issued by me. Our first demo, titled "Lesson #1" was released in December 2006 and soon afterwards, ArciSana Records chose a song from it for its national compilation. Yet it's only with the arrival of Riky on bass and Gabriele on vocals in 2008 that the project took off.
Let's say that just like any other respectable punk band we have been through many changes in the line up. Currently I'm the only founder member in the band, but, hey, who cares? The band has never been so united and playing together has become extremely funny. Moreover, we are sure of our means and of our new songs and this feeling gives us a lot of enthusiasm and strength.

3. I know that you have a demo,called: "Lesson #1", Are you getting ready for something new? An album or something?
Yes, absolutely. Our demo "Lesson #1" dates back to 2006 and it's time to release something new, especially because in the meanwhile we changed components, we changed our setup and we grew up together as a band. We are not going to repeat the same mistakes done in the past (musically speaking). We have some brand new songs ready, which we've been playing live since some months, and amongst all these, we have chosen 3 of them to be recorded in July or August. Therefore it will be a "single" composed by 3 brand new songs, which we guarantee will blow the heads away of whoever likes catchy punk-rock tunes and sing along choruses. Most likely it will be named "Where is the love", from the name of our best track so far. All people attending to our gigs claim they have been impressed by these 3 new songs in particular, so the choice for us was very easy.

4. I saw some pictures from Bad Manners, how do you see yourself when you're gonna be the age of Buster? Well, hopefully thinner! Ah ah ah, no I'm joking. I must admit he grew much thinner from the first time I saw him playing in London (2000). I'll be probably still playing in a band, but most likely in a ska band this time. I would have little credibility playing punk-rock at the age of 50 years old… By that time I'll have gone through many experiences, I'll have visited new places and met interesting people. I'll probably have a family of my own (and I underline "probably"), but I'll still be looking for fun, alcohol and good friends to share my experiences with, just like I'm doing nowadays.

5. By the way,about "Bad Manners", tell me something about your favourite bands. I saw that besides Manners you are fans of Specials. Hehe
Of course I like The Specials! These lads really kicked asses, their sound was so fresh, so infectious, even nowadays it's impossible to keep your feet and your legs quiet. Not to mention The Selecter, Madness, Laurel Aitken, Judge Dread and tons of others ska bands I listen to. As you might understand I'm a big ska fan. In this period of my life I'm appreciating a lot the so called early ska, therefore bands like Toots & The Maytals, Prince Buster, Jimmy Cliff, Byron Lee and the Dragonaires and so on. I'm more into the Sixties and the skinhead reggae right now.

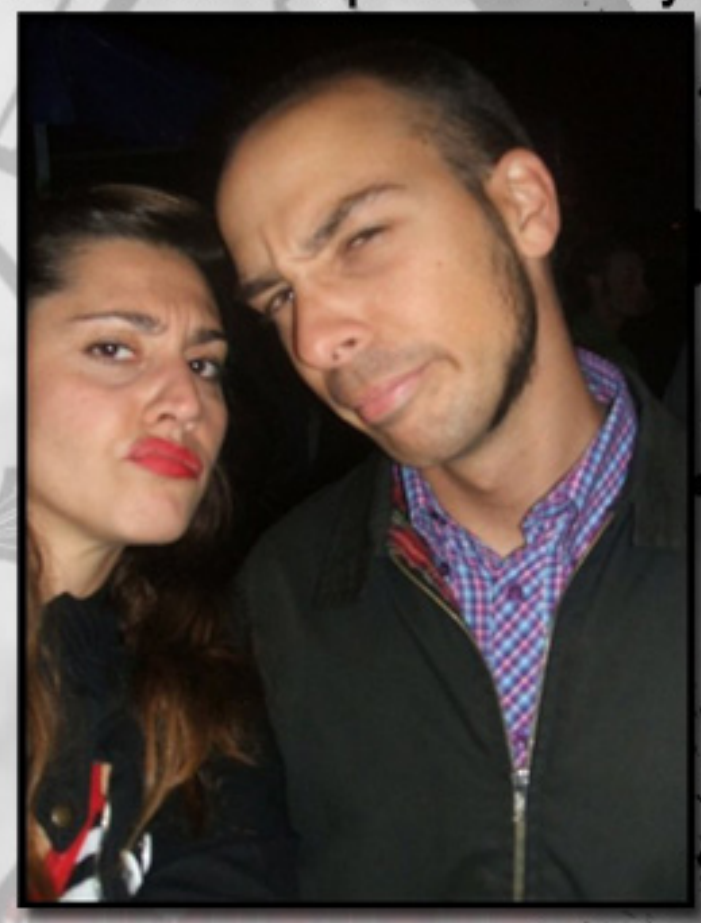
6. Speaking about bands. Tell me something about your gigs. How is the atmosphere there in Padova?
First of all we must thank our friends and core fans who follow us at every concert, therefore we can say that we always have a great time when we play live, we never feel left alone and we are looking forward to performing the next shows. So far we've always been able to pack up the places where we played and this is a great achievement and strong encouragement.
Padova is a shitty middle class city and most of the kids haven't even listened to a single punk song in all their boring and rich lives. So the atmosphere at punk gigs in Padova is quite poor compared to other close countries like Germany, Spain and UK in general. I attended to gigs in all the UK, Germany, Spain, France and Norway and people over there are much more interested in new bands compared to Italy. In Italy there are a lot of cover bands, only too few people want to start a band to play their own music. They all choose the easiest way: play songs by somebody else and I believe this is really restricting Italian music culture. There is only room for bands who appears in MTV and cover bands. That's what most of the people wants to see and to listen to when they go to a pub or in a venue. There are loads of great Italian bands who are struggling in the underground scene since ages. That's also why we sing in English after all: we would prefer to play abroad for a bigger and more interested crowd. Hope dies last we use to say…

7. The girls on the website who have the name "make it happy" written in different parts of the body, are them fans? Did they got a free demo for their work?
Oh yeah, those girls are our pride! They were selected after hundreds and hundreds of pictures which overwhelmed us last year. We asked through MySpace if someone was interested in taking part into our slideshow and the response was incredible. There are still girls who want to send their pictures! So, it was not possible to send them all our demo as we hadn't so many. We've just told them they will have a free gift in the backstage of our gigs and the fame of the next centuries…

8. Make me a top 10 with your favourite bands
I will list 10 names who are of great influence to the sound of the band but I can not list them per order of importance as every member of the group has its own musical taste and that would be too tough to choose:
1. Ramones 2. Green Day 3. Cock Sparrer 4 .Dropkick Murphys 5. Rise Against 6. The Specials 7. Laurel Aitken 8. The Who 9. Backyard Babies 10. Sum41
I personally haven't got a single favourite band, though. I listen to many different musical genres and having a single favourite band would be too limiting for me. It also depends from my mood.

9. The last album listened?
The Police "Regatta De Blanc". It's because I'm getting ready to their gig here in Venice next Sunday… I've been listening to them since when I was a little kid because my parents owned some of their vinyls. From the moment I first saw "Quadrophenia" and I noticed Sting playing the role of Ace The Face, he became one of my youth heroes and I promised myself to catch The Police live one day. For any reader who hasn't seen the movie "Quadrophenia": GET IT!! You'll learn more about youth subcultures like mods and rockers and the soundtrack is amazing.

10. About euro 2008 hihi heavy group. Tell me, what do you think about Romania? Who's gonna win?
Oh yeah, every respectable Italian is fond of football and would talk about it for hours and hours, you know that too, huh? Romania has a good football team, it plays just like Italy has been playing since ages: with "catenaccio". Therefore no Italian should ever complain about it.



Moreover you have Mutu who is really a good football player. I think you can have some satisfactions during these European Championships. Italy doesn't deserve to qualify to the quarter finals, we just hope to win our personal European Championship: beat France!
I believe the best teams so far are Portugal, Spain and the Netherlands. If Italy goes out I will support Spain for sure also because I have a lot of Spanish friends and I'd be happy for them if Spain wins the European Championships.

11. About the Stage in Romania, do you know something? Do you know a band, fanzine, or anything else?
I must admit I don't know so much about Romanian scene, but MySpace in this case is very helpful. It gives me the chance to know and to listen to a lot of bands and to get in contact with a lot of people and a lot of fanzines, just like in our case, my dear Mircea. For example I know a fanzine called "No bollox just Oi!" which, I believe, is run by some Romanian lads. Then I know few Romanian bands but nothing else, sorry. So, please, any punk/Oi Romanian band out there, get in contact with us via MySpace or e-mail because in the future we could exchange some gigs! For us it is always helpful and useful knowing other bands from abroad.

12. Thank you for this interview, Marco. I wish you all the best and good luck. If you want to say something extra, please say it now.
Well, ok, thanks again to you and to your fanzine first of all. I hope to have created some interest towards us in all the readers of More Punk Than You zine. We invite you all to visit our websites and to leave a little mark of your passing-by in our guestbooks. Hopefully very soon you'll be able to listen to our new songs in MySpace: remember to rise your glasses full of beer and sing along our choruses at home, in the pubs or in the streets, this is actual the way to enjoy them!

H2o-Nothing To Prove-Bridge9 Records

Se pare ca a meritat 7 ani de asteptare.H2o s-au intors in 2008 cu un nou material,Nothing To Prove pe numele sau,lansat de aceasta data la Bridge9 Records.Va spun din start,albumul aduce colaborari cu mai toate numele mari ale scenei HC/Punk din NY si nu numai cum ar fi: Roger Miret(Agnostic Front),Matt Skiba(Alkaline Trio),Kevin Seconds(7 Seconds),Anthony Civarelli(CIV),Lou Koller(Sick Of It All) sau Freddy Cricien(Madball).
Trupa se intoarce inapoi in timp,in 1995,ne spun ca nu au nimic de dovedit alaturi de Roger Miret si in acelasi timp se intreaba ce s-a intamplat cu muzica punk pe care o stiau ei alaturi de Matt (Alkalino Trio) si Lou (SOIA).
Toby dovedeste ca poate fii si sentimental (yeah,hardguys have feelings) in piesa Sunday.Pozitiv este un alt cuvant ce caracterizeaza muzica si versurile celor de la H20 pe tot parcursul albumului.Still Here este in opinia mea cea mai buna piesa de pe album,cu un semn de intrebare asupra acelora care apar in scena punk pentru un an si tot asa repede dispar (si totusi punk-ul exista de 38 de ani)-saci.
Cu siguranta nu trebuie ratat!
Familie,prieteni,muzica si respect: H20...GO!

Street Dogs-State Of Grace-Hellcat Records

Cu acest album Hellcat Records s-au intrecut pe ei insisi Street Dogs o dovedesc din plin,catchy Boston style,alaturi de un mix de punk si hardcore pentru 11 piese.Piesa cea mai reprezentativa dupa album pare a fi balada Kevin J.O'Toole,pentru unchiul lui Mike Mc.Colgan decedat sau General's Boombox dedicata lui Joe Strummer.Albumul are mult mai multe accente irish fata de precedentul Fading American Dream si este de departe cel mai bun album al trupei de pana acum.
Albumul contine si un cover dupa Skids la piesa Into The Valley,mult mai reusita celor de la Street Dogs(sac) dar si o piesa cu pumnul in aer cum ar fi Rebel Song.Elizabeth este o piesa traditionala irlandeza pe care Mc Colgan o dedica bunicii lui.
Acest album,dupa spusele lui Rioux(bass) este mai putin politic si mai mult axat pe viata de zi cu zi,adusa in prin plan intr-un mod mai puternic.
Albumul se incheie cu o balada "Free",avand poate cele mai personale versuri scrise de McColgan.
Cu siguranta unul din cele mai bune albume din acest an!Merita.

STILITI

italian ska band

1.Hi, Andy! How are you? How is Stilìti?

Hi to everybody, Stiliti him they were you of the Greek monks that actually prayed on top of the columns for months to the death. The name however she has casually been select...

2.Denti Streti came out in 2007. Have you recorded anything new until this moment?

We have recorded in February 2008 the video of the passage Lacio Drom of "A Denti Stretti" and reprinted the album in limited edition with the traces video to the inside as extra. From remember that the disk, thanks to the Megalith records, is in digital distribution in the best Usa and Canadian sites.

3.Tell us a little about Stiliti's history, considering that you're a member since 1994.

The Stiliti him they were born you in a wine cellar from of the impassioned friends of ska, and we have had the fortune to know the Statuto and the Persiana Jones that they have helped us to grow and now we are one of the skas band more longeves of Italy.

4.Hey, listen... who is Lucyenne? hihi

Lucyenne è una donna un pò particolare, vive di notte.. ahah.. it is a prostitute.. LoL

5.I know u have a passion for tattoos. How many do you have? And which one do you like best?

The tattoos are the sonorous column of my life. Every time that I have a moment of my particular life, I write me her on the body. Now I am ending the tattoo n°19 that has to that to make on the positive moment of the Stiliti.. music, fortune and women.. hihihii

6.What's the atmosphere at One Step Records? How do you get along with the guys of Redska?

We wanted a label all ska and the One step he has been that that served us, then with to increase of the dates and of the job developed with the new video, we have looked for a new bigger label: The Baraonda Records and a new office it stamps, Arte-Vox in Milan. With the RedSka we have a good relationship of friendship.

7.I know that you have some concerts soon. Anything in East Europe?

Let's have now many concerts, but anchors nothing in Europe, let's hope very soon, rather I gather the occasion for hi, reads this interview that if someone wanted stuffed to play, are suffered and gladly!!

8.Speaking about East, do you know any bands from here?

Mhh.. I regret but I don't know anybody..

9.I've noticed that you're a big Kortatu fan. Do you know anything new about them?

I am grown with the music of the Kortatu, I know Fermin Muguruza and it is a great person.. They don't exist anymore unfortunately, but their music is always in my blood...

10.Give me some details about the ska/punk scene in Italy.

In Italy the scene skapunk is not very active, ska there is more classical style 2tone..However I signal you a very strong group that makes ska-core and they calls The Braghe Corte and they arrives from Bologna.

11.Speaking about bands, could you make me a top 10 of your favourite bands?

The music that I listen varies from the moments, I can tell you what my preferred groups are: Kortatu, Ska-P, Mad Sin, Reverend Horton Heat, Madness, Specials and Haysee Dixie.

12.Thanks for the interview! I hope we'll have the chance to see eachother at some gig in Romania someday. If there's anything you want to add, you can do it now. Thanks!

Thanks to you Mircea for the availability and a regard in the whole Romania.
I hope to play soon in your country.

Discipline

Street Punk direct din Olanda.Formati undeva in 1990,Discipline reprezinta azi una din cele mai reprezentative trupe oi/hardcore.In 1995 reusesc sa semneze primul contract cu o casa de discuri (Lost and Found Records)din Germania,asta dupa multe demo-uri trimise.
Primul material lansat la cei de la Lost and Found a fost "Stompin' Crew-EP"de 5 piese in vara lui 1995.Acest EP a fost urmat si de primul album al trupei: "Guilty as Charged" in 1996.
Acesta a fost bine primit de catre critica muzicala si de catre fanii trupei,facand din acest album o adevarata "dinamita",ceea ce a adus trupei numeroase concerte si un turneu cu The Business in toata Europa pentru promovarea acestui album.
La inceputul lui 1998 trupa lanseaza Bulldog Style tot la Lost and Found.Pe acest album trupa a reusit foarte bine sa combine oi cu hardcore,avand ca si precedentul album un enorm succes in scena underground.

Dar mai exista o parte a monedei...violenta si luptele din timpul concertelor au facut ca trupa sa fie acuzata de promovarea acestor lucruri ceea ce a dus la o stagnare a trupei.Din fericire dupa putina pauza,publicitatea negativa a trupei s-a oprit.
Datorita acestei pauze relatia dintre trupa si Lost and Found s-a deteriorat si trupa a fost nevoita sa plece,semnand cu I Scream Records (Belgia).
Primul material lansat aici a fost Nice Boys Finish Last in 1999.Odata cu acest album fara indoiala,Discipline a intrat in galeria celor mai bune trupe de streetpunk din Europa.Pentru promovarea acestui album trupa a participat la cateva festivaluri alaturi de trupe ca: Agnostic Front,Dropkick Murphys sau US Bombs.Tot acest album s-a bucurat si de o lansare in USA prin case de discuri Too Dmn Hype Records.
Acest album a fost urmat la sfarsitul lui 2000 de Love Thy Neighbor.Cu o luna inainte de aceasta lansare single-ul "Hooligans Heaven"facea deja furori in scena underground,devenind un fel de "imn".Pentru promovarea acestui album,trupa ia parte la Unity Tour 2000 alaturi de Agnostic Front,Ignite sau Shutdown.
